REVIEW OF JUNE.

After the panic in May a quiet state of affairs developed during June. Subsequent to the 5th of the month there were only two days when the share sales reached a million shares a day, and there were several days when the total amounted to less than half a million shares, extreme dullness prevailing the last week. The aggregate sales for the month were 19,795,613 shares, this comparing with 35,292,203 shares in May and with 41,719,086 shares in April, the latter the largest figures on record for a month. It was natural that there should be a return to a smaller volume of business. The panic, as will be remembered, occurred during the early part of May, and before the close of that month a very substantial recovery in prices had taken place. There was, therefore, during June no inducement for either speculative or investment purchases on the score of low prices. Besides this, there would obviously be a disposition to go slow after such a cyclonic affair as the panic—to take bearings and see if the event had anything more than passing significance. Furthermore, the losses inflicted by the collapse in prices had undoubtedly left many speculators of the extremely venturesome type in such a crippled state that they were not in position to resume operations—at least on the same extensive scale as before.

A careful study of the situation has made it evident that there was nothing in the underlying conditions determining values to which the tremendous price convulsion of May could be ascribed. On the other hand, sufficient time has now elapsed since the panic to warrant the conclusion that that event has had no effect, and is not likely to have, to change these underlying conditions, which remain as encouraging as before. By this we mean that our industries remain active and prosperous, one illustration of the activity being furnished by the course of iron production, where new high totals of output are being made again and again. Testimony to the same effect is found in the continued gains in railroad gross and net earnings revealed in the weekly and monthly returns which are being spread on record. Of course as to the immediate future much will depend upon this year's harvests of our leading agricultural products. Until the outcome in that particular shall be known with considerable definiteness, many operations will obviously be held in check. All that can be affirmed with positiveness at this stage is that up to the present time the indications are highly promising.

The wheat crop will be much above the short crop of last season; the Agricultural Bureau report issued June 10 showed some impairment of condition in winter wheat as the result of drought, but the average was nevertheless stated much higher than last year, and relief from drought had already been experienced when the report which aims to show the status of the plant the 1st of the month was put out. The average at 87.8 for June 1 this year compares with 82.7 in June last year and with 67.3 in June 1899. As for the spring wheat outlook, this is vastly superior to that of a year ago, when the crop over large portions of the spring-wheat area turned out to be an almost complete failure.

While circumstances did not favor any great general activity on the Stock Exchange, they did not prevent movements in special stocks, and these special movements were the distinguishing feature of the month. Thus the speculation in Milwaukee & St. Paul common stock was renewed on a repetition of the rumors that the property was to be acquired in the interest of one of the other large companies—the Union Pacific being specifically mentioned on this occasion as having designs of that kind. These rumors were denied, but they served their purpose, and the stock advanced from 163½ June 1 to 185½ June 17, closing at 178 June 29. Iowa Central advanced from 34½ June 4 to 43½ June 21 for the common, and from 62 June 5 to 82 June 25 for the preferred, and Minneapolis & St. Louis common from 93 June 13 to 109½ June 21 on reports that the Illinois Central was to take over both properties. Illinois Central itself rose from 142 June 1 to 154½ June 29 on the generally favorable condition of the property. Chicago Great Western common rose from 22½ June 6 to 26½ June 22, St. Louis & San Francisco common from 45 June 10 to 54½ June 20, and Twin City Rapid Transit common from 83½ June 3 to 95 June 20. New York Central was another strong stock. Several of the iron and coal properties were also prominent in this respect, the notion being assiduously cultivated that the United States Steel Corporation intended to absorb them; Colorado Fuel & Iron common advanced from 98 June 1 to 136½ June 17, and Tennessee Coal & Iron from 58 June 10 to 76½ June 18, the close on the 29th being much lower at 116 and 72½, respectively.

Generally speaking, the market was strong the first three weeks, but depressed the last week. The occasion for this depression was the development of a number of untoward events and incidents—the existence of active money, the occurrence of some more financial difficulties in Germany (the Leipziger Bank of Leipzig having failed), the damage done by floods and a cloudburst in the Pocahontas Flat Top Coal region of West Virginia, along the line of the Norfolk & Western, and the failure of the Seventh National Bank of this city. The latter was perhaps the most disturbing, as rumor hinted of failures of other banks, and possibly also a trust company. These rumors it soon appeared were baseless. The bank's embarrassed condition was first disclosed on Tuesday, the 25th, when it had difficulty in meeting a debit balance of \$983,000. It was helped out of this trouble by Edward R. Thomas, a son of Gen. Samuel Thomas, and Mr. Thomas then assumed the Presidency. The debit balance the next day was small, and was readily met. On Thursday, however, the debit balance was \$644,108, and as the Comptroller of the Currency had notified the directors that a loan of \$1,600,000 to Henry Marquand & Co. (to which the

embarrassment of the bank was due) must be taken up by Saturday the 29th, it was deemed best to suspend payments, and a receiver appointed by the Comptroller took possession. On Friday the 28th the firm of Henry Marquand & Co. made an assignment. The facts plainly showed that the troubles of the Seventh National were of an isolated character, and did not reflect any general condition of unsoundness among the banks, and as soon as this became understood the stock market again took on a firm tone.

The money market was a deterrent upon speculation the whole of the latter half of the month. There was a large increase in the loans of the Clearing-House banks, and surplus reserves were steadily reduced, dropping from \$21,253,050 to \$13,341,500 June 8, to \$8,782,125 June 15 and to \$6,611,350 June 22. A large reduction of the loan accounts brought the item back to \$8,484,200 June 29. Call loans at the Stock Exchange touched 5 per cent as early as the 17th, and during the derangement of the money market occasioned by the suspension of the Seventh National Bank the rate reached 15 per cent. The following is the weekly record of the rates upon various classes of loans.

The foreign exchange market was strong the first half of the month, and some large shipments of gold were made to Germany. But the tightening of the money market here, together with the development of ease at the European centres, caused a weakening in exchange and checked the further outflow of the metal. The Bank of England twice reduced its minimum rate of discount—from 4 to 3½ per cent on the 6th and to 3 per cent on the 13th. The Bank of Germany on the 18th marked down its official rate from 4 to 3½ per cent.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1900. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Prices about January 2, 1901," were made on that date except those in italics, which are the nearest in January, 1901. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of Stocks.

GENERAL QUOTATIONS

—OF— BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.
 2. Quotations from all Stock Exchanges are as near as possible for the last day of June. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
 3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
 4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.
 5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
 6. The following abbreviations are often used, viz.: "M." for mortgage; "g." for gold; "g.d." for guaranteed; "end." for endorsed; "cons." for consolidated; "conv." for convertible; "s. f." for sinking fund; "l. g." for land grant.
 7. The black-faced type in the letters showing the interest periods indicates in each case the month when the bonds mature.
- § We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. In all other cases accrued interest must be added to the price.

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent. with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

☞ Notice Change.—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
